INTRODUCTION

The main goal of an educational institution is to impart an all-round education to the students such that they develop not only their academic side but also shape their character so as to become dutiful citizens of the country. As such, proper syllabi, extra-curricular activities and other initiatives are taken up for their holistic development. However, each and every effort remains lacking without the addition of a proper student feedback for the same. An effort has been made to collect the view points of the students so as to improve the already existing structure and determine the efficiency of the same.

METHODOLOGY

A shift has been made by changing the feedback process from offline to online owing to the pandemic circumstances. Further a new process has been introduced where the students have to mandatorily fill the online feedback form to be able to collect their certificates. A simple statistical method has been applied to analyze the collected data.

ANALYSIS OF STUDENTS' FEEDBACK

All the responses have been tabulated and scrutinized carefully to analyze them so as to gain a better understanding of the viewpoint of the students. The analysis is taken to consideration with respect to the suggestions offered accordingly.

1. How much of the syllabus was covered in the class?

Parameters	85 to 100%	70 to 84%	55 to 69%	30 to 54%
How much of the syllabus was covered in the class?	90.73%	5.79%	1.15%	0%

Covering the syllabus is one of the most prominent goals of the faculty and the department. **90.73% of the syllabus** was covered in the **85% to 100% range**, which indicates that the majority of the syllabus has been completed to a high degree (likely almost fully covered or fully understood). **5.79% of the syllabus** was covered in the **70% to 84% range**, which suggests that a small portion of the syllabus was covered with moderate comprehension or progress. **1.15% of the syllabus** was covered in the **55% to 69% range**, meaning that only a very small portion of the syllabus was partially covered or understood at a lower level

2. How well did the teachers prepare for the classes?

Parameters	Responses (in %)				
	Thoroughly	Satisfactorily	Poorly	Indifferently	Won't Teach at all
How well did the Teachers prepare for classes?	61%	36.29%	0.38%	0%	0%

It is a major duty of the teacher to prepare for the class beforehand so as to make a fruitful use of the class duration. **61% of the responses** indicate that the teachers prepared **thoroughly** for classes. This suggests that a significant majority of respondents felt the teachers were very well-prepared, putting considerable effort into their lessons. **36.29% of the responses** indicate that the teachers prepared **satisfactorily** for classes. This indicates that a large portion of the respondents found the preparation to be adequate, though not exceptional. **0.38% of the responses** indicate that the teachers prepared **poorly** for classes. This suggests that only a very small fraction of respondents felt the teachers' preparation was subpar.

3. How well were the teachers able to communicate?

Parameters	Responses (in %)				
	Always Effective	Sometimes effective	Just satisfactory	Generally ineffective	Very Poor Communication
How well were the Teachers able to Communicate?	61.38%	34.36%	1.15%	0.77%	0%

Communication skill is a major necessity in a classroom for a stable teacher-student interaction. **61.38%** of respondents felt that the teachers' communication was "**Always Effective**". This indicates that the majority of people found the teachers to be consistently good at communicating. **34.36%** felt the communication was "**Sometimes effective**". While still a positive response, this suggests that for a significant portion of respondents, the communication was not always at its best, but still adequate on occasion. **1.15%** rated the communication as "**Just Satisfactory**". This is a small percentage, indicating that only a few found the communication just acceptable without any significant strength or weakness. **0.77%** considered the communication "**Generally Ineffective**". This indicates that a very small minority thought the communication was below par but not completely ineffective.

4. Fairness of the internal evaluation process by the teachers

Parameters					
	Always Fair	Usually Fair	Sometimes Fair	Usually Unfair	Unfair
Fairness of Internal Evaluation process by the teachers:	61.38%	35.13%	1.15%	0%	1.38%

The Evaluation system needs to have a proper transparent structure that gives an equal platform for students to perform their best. **61.38%** of respondents felt the evaluation process was "**Always Fair**". This is the largest group and indicates that the majority of people believe the teachers consistently conduct evaluations fairly. **35.13%** rated the evaluation process as "**Usually Fair**". This still represents a generally positive perception, suggesting that most people felt the evaluations were fair most of the time. **1.15%** considered the evaluation to be "**Sometimes Fair**". This is a small percentage, meaning that only a few people thought the evaluations were occasionally fair but not always. **1.38%** felt the evaluation process was "**Unfair**". This small percentage indicates a very minor concern about fairness in the evaluation process.

5. Was your performance in assignments discussed with you?

Parameters	Responses (in %)				
	Every time	Usually	Occasionally/ Sometimes	Rarely	Never
Was your performance in assignments discussed with you?	61.38%	33.97%	2.31%	0%	0%

Proper performance discussion is an essential part of student centric approach. **61.38%** of respondents said their performance was discussed "**Every time**". This represents a majority, indicating that most students consistently had their assignment performance reviewed and discussed with them. **33.97%** reported that their performance was discussed "**Usually**". This still indicates a high level of engagement, with many students having their performance addressed regularly, though not always every time. **2.31%** felt that their performance was discussed "**Occasionally/Sometimes**". This percentage is small, suggesting that a few students had their performance discussed only occasionally, and not as a regular part of the process.

6. The institute takes active interest in promoting internship, student exchange, and field visit opportunities for students.

Parameters	Responses (in %)				
	Regularly	Often	Sometimes	Rarely	Never
The institute takes active interest in promoting internship, student exchange, field visit opportunities for students.	99.38%	32.43%	3.47%	0.77%	0%

Student centric activities like internship, student exchange and field exchange help in a holistic development. **99.38%** of respondents said that the institute promotes these opportunities "**Regularly**". This overwhelmingly positive response suggests that nearly all respondents believe the institute is highly proactive in providing such opportunities. **32.43%** reported that these opportunities are promoted "**Often**". This indicates that a significant portion of students see the institute frequently encouraging these opportunities, though not always as consistently as those who reported it as "regular." **3.47%** indicated that the opportunities are promoted "**Sometimes**". This small percentage suggests that for a few students, the promotion of these opportunities may not be as frequent or consistent. **0.77%** felt that the opportunities are promoted "**Rarely**". This represents a very small portion of respondents who believe the institute does not often focus on these opportunities.

7. The teaching Mentoring Process in Your institution facilitates you in cognitive, social and emotional growth

Parameters					
	Significantly	Very Well	Moderately	Marginally	Never
The teaching Mentoring Process in Your institution facilitates you in cognitive, social and emotional growth	57.14%	37.83%	2.31%	0.38%	0%

The teaching Mentoring Process facilitates in cognitive, social and emotional growth of the students. **57.14%** of respondents felt that the mentoring process facilitates their growth "**Significantly**". This is the largest group, suggesting that more than half of the students feel the mentoring process has a strong and notable impact on their overall cognitive, social, and emotional development. **37.83%** reported that the mentoring process supports their growth "**Very Well**". This is another large portion, indicating that a substantial number of students feel the mentoring process has a positive, though slightly less intense, impact. **2.31%** felt the mentoring process facilitated their growth "**Moderately**". This suggests a small group of students feel the mentoring process has a more neutral or less impactful effect on their growth. **0.38%** indicated that the mentoring process helped with their growth "**Marginally**". This is a very small percentage, suggesting that only a few students felt that the process had a very limited impact.

8. Teachers inform you about your expected competencies, course outcomes and programme outcomes

Parameters					
	Every Time	Usually	Occasionally/ Sometimes	Rarely	Never
Teachers inform you about your expected competencies, course outcomes and programme outcomes	91.89%	37.06%	1.93%	0.38%	0%

As stated by the survey, **91.89%** of respondents said that teachers inform them about these aspects "**Every Time**". This is a very high percentage, suggesting that most students are consistently provided with clear information about the expectations, learning goals, and outcomes for their courses and programs. **37.06%** reported that this information is provided "**Usually**". This indicates that a significant number of students feel they are typically informed, though not always every time. **1.93%** felt that the information was provided "**Occasionally/Sometimes**". This small group suggests that a few students may not receive this information as consistently or clearly as others. **0.38%** indicated that the information is provided "**Rarely**". This represents a very small percentage of students who feel they are not often informed about competencies, course outcomes, or program outcomes.

9. The teachers illustrate the concepts through examples and applications

Parameters					
	Every Time	Usually	Occasionally/ Sometimes	Rarely	Never
The teachers illustrate the concepts through examples and applications.	59.07%	36.67%	1.93%	0%	0%

Illustration helps in the mind mapping of various knowledge branches aiding the students in grasping the concepts easily. **59.07%** of respondents reported that teachers illustrate concepts "**Every Time**". This is the largest group, indicating that more than half of the students consistently see teachers use examples and applications to explain concepts. **36.67%** felt that teachers illustrate concepts "**Usually**". This suggests that a significant portion of students often experience teachers using examples and applications, although it might not be every time. **1.93%** said that teachers illustrate concepts "**Occasionally/Sometimes**". This is a small percentage, indicating that a few students might find that examples and applications are used less frequently.

10. The teachers identify your strengths and encourage you with providing right level of challenges

Parameters	Responses (in %)				
	Fully	Reasonably	Partially	Slightly	Unable to Say
The teachers identify your strengths and encourage you with providing right level of challenges	60.23%	35.13%	1.93%	0.38%	0%

Identification of the strength and weakness of the student allows for a certain flexibility and individualistic approach to each student. **60.23%** of respondents feel that teachers "**Fully**" identify their strengths and provide the right level of challenges. This is the largest group, indicating that more than half of the students believe teachers are highly effective in recognizing their abilities and appropriately challenging them. **35.13%** reported that teachers do this "**Reasonably**". This suggests that a significant portion of students feel that teachers are somewhat effective, but not as consistently or thoroughly as the group who felt it was done "fully." **1.93%** indicated that teachers "**Partially**" identify their strengths and provide the right level of challenges. This is a small percentage, suggesting that a few students feel the support and challenges they receive are only somewhat effective or incomplete. **0.38%** felt that teachers did this "**Slightly**". This represents a very small number of students who feel that teachers' efforts in identifying strengths and providing appropriate challenges are minimal.

11. Teachers are able to identify your weaknesses and help you to overcome them.

Parameters	Responses (in %)				
	Every time	Usually	Occasionally/ Sometimes	Rarely	Never
Teachers are able to identify your weaknesses and help you to overcome them	57.52%	37.83%	2.31%	0%	0%

Identifying weaknesses and tackling them is another major concern in an educational institute. **7.52%** of respondents said that teachers "**Every time**" identify their weaknesses and help them overcome them. This is the largest group, suggesting that more than half of the students feel that teachers are consistently effective in recognizing their weaknesses and providing support to address them. **37.83%** reported that teachers "**Usually**" identify their weaknesses and provide assistance. This indicates that a significant portion of students often receive help from teachers to overcome their weaknesses, though not always every time. **2.31%** said that teachers do this "**Occasionally/Sometimes**". This represents a small percentage, indicating that a few students feel this support is less frequent or not as consistent.

12. The institute/ teachers use student centric methods, such as experiential learning, participative learning and problem-solving methodologies for enhancing learning experiences.

Parameters	Responses (in %)				
	To a great extent	Moderate	Somewhat	Very Little	Not at all
The institute/ teachers use student centric methods, such as experiential learning, participative learning and problem-solving methodologies for enhancing learning experiences	56.75%	38.22%	2.31%	0.38%	0%

The teaching learning process can be successful only if the desired goal is reached. As such it is important to have a process that is student centric to gain maximum development. **56.75%** of respondents feel that the institute/teachers use these student-centric methods "**To a great extent**". This is the largest group, indicating that more than half of the students believe that these methods are frequently and effectively used to enhance their learning experiences. **38.22%** reported that these methods are used "**Moderately**". This suggests that a significant portion of students see some use of these methods, but not to the same extent as those who feel they are used to a great extent. **2.31%** indicated that these methods are used "**Somewhat**". This small percentage suggests that a few students feel these methods are employed to a lesser degree. **0.38%** said that these methods are used "**Very Little**". This represents a very small number of students who feel that the student-centric methods are minimally used in their learning experiences.

13. Teachers encourage you to participate in extracurricular activities.

Parameters					
	Strongly Agree	Agree	Neutral	Disagree	Strongly Disagree
Teachers encourage you to participate in extracurricular activities	52.50%	44.40%	0.77%	0%	0%

Extracurricular participation allows a student to develop not only academically but also in other facets of life. **52.50%** of respondents "**Strongly Agree**" that teachers encourage them to participate in extracurricular activities. This is the largest group, indicating that more than half of the students feel strongly supported by their teachers in participating in extracurricular. **44.40%** "**Agree**" that teachers encourage them to participate. This is also a significant percentage, suggesting that a large majority of students feel teachers provide support, though not as strongly as those who "Strongly Agree." **0.77%** selected "**Neutral**", meaning that a small portion of students neither agree nor disagree, possibly feeling that the encouragement is not particularly strong or noticeable.

14. What percentage of teachers use ICT tools such as LCD projector, Multimedia, etc. while teaching?

Parameters	Responses (in %)				
	To a great extent	Moderate	Somewhat	Very Little	Not at all
What percentage of teachers use ICT tools such as LCD projector, Multimedia, etc. while teaching?	61.77%	33.97%	1.15%	0.38%	0.38%

With the increase in technology usage, ICT has become a major tool for instruction in educational institutes. **61.77%** of respondents feel that teachers use ICT tools "**To a great extent**". This is the largest group, indicating that a significant majority of students believe that teachers make frequent and effective use of ICT tools in their teaching. **33.97%** reported that ICT tools are used "**Moderately**". This suggests that a large portion of students sees some, but not as frequent or extensive, use of ICT tools during teaching. **1.15%** indicated that ICT tools are used "**Somewhat**". This small group suggests that a few students feel the use of ICT tools is limited or not as effective in their teaching experiences. **0.38%** said that ICT tools are used "**Very Little**". This represents a very small number of students who feel that ICT tools are used sparingly during teaching. **0.38%** also reported that ICT tools are used "**Not at all**". This is a small percentage, indicating that a few students feel ICT tools are completely absent from their lessons.

15. The overall quality of teaching-learning process in your institute is very good.

Parameters					
	Strongly Agree	Agree	Neutral	Disagree	Strongly Disagree
The overall quality of teaching-learning process in your institute is very good	52.12%	44.40%	1.15%	0%	0%

According to the survey, **52.12%** of respondents "**Strongly Agree**" that the overall quality of the teaching-learning process is very good. This is the largest group, indicating that more than half of the students have a highly positive view of the quality of teaching and learning at their institute. **44.40%** "**Agree**" that the teaching-learning process is very good. This is another large group, suggesting that a significant portion of students also view the quality positively, though not as strongly as those who "Strongly Agree." **1.15%** selected "**Neutral**", indicating that a small percentage of students neither agree nor disagree, possibly feeling that the quality of the teaching-learning process is average or uncertain.

SUGGESTIONS

- Teachers may try to discuss with the students regarding their performance in internal assessment.
- The evaluation process of internal assessment of the college should be fair keeping in view of greater interest of the student.

Summary of Action Taken

Suggestions	Action taken

INTRODUCTION

Feedback is the basic measure to assess the overall standard of an educational institution. It is an essential part of education and training programmes. This system aids the administration of the educational institute in improving the educational facilities and teaching learning process. Therefore, feedback analysis is carried out for the improvement of curriculum and academic atmosphere of the institution.

METHODOLOGY

The feedback analysis committee distributed the questionnaires randomly amongst the alumni. The questionnaires included ten parameters based on the educational atmosphere and other facilities of the college. The questionnaire was formed in Google form and distribute through what's app group. Following these 21 responses were collected.

ANALYSISANDINTERPRETATIONOFDATA

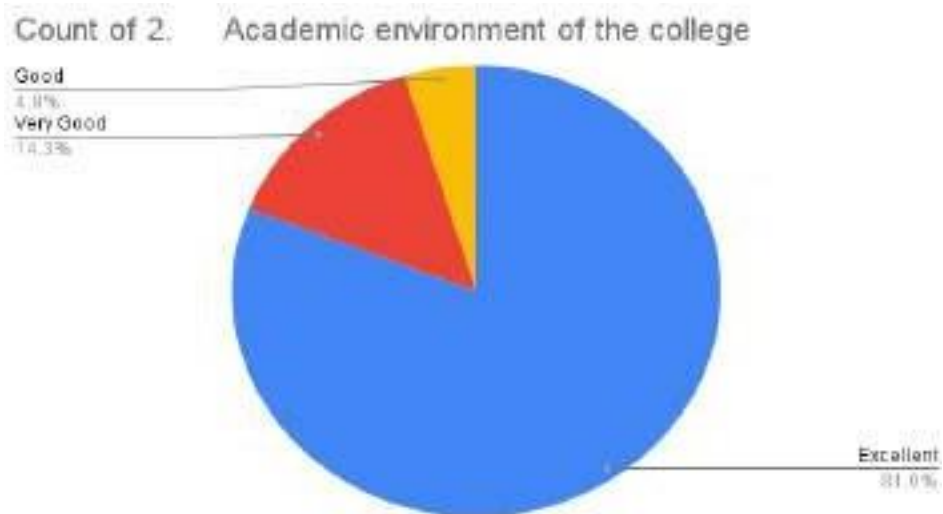

The prescribed feedback forms with 10 parameters regarding the educational atmosphere and physical facilities of the college were collected from the alumni. The feedbacks of the alumni have been analyzed as follows-

1. Transparency of Admission Procedure

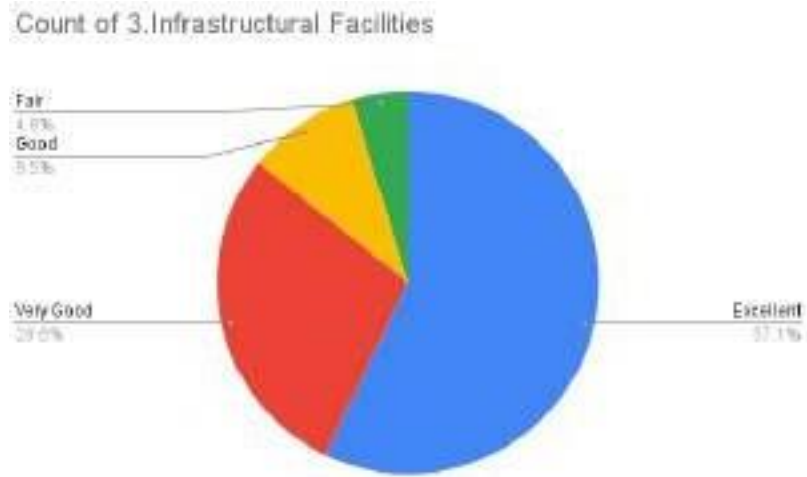

The feedback for the admission procedure is overwhelmingly positive. Most respondents rated it as *Excellent* or *Very Good*. This suggests that alumni feel the admission process is clear, well-organized, and efficient.

2. Academic Environment of the College

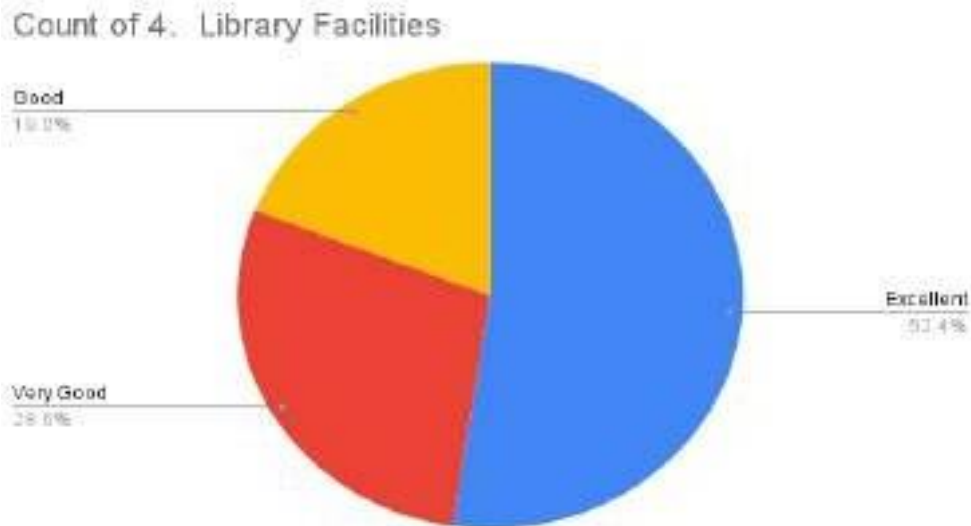

The academic environment is consistently rated as *Excellent* or *Very Good*, indicating that the college fosters a strong academic atmosphere conducive to learning.

3. Infrastructural Facilities

The infrastructure is predominantly rated as *Excellent*, with only a few instances of *Very Good* and *Good* ratings. This implies that the college has excellent facilities, though there is some room for improvement in certain areas.

4. Library Facilities

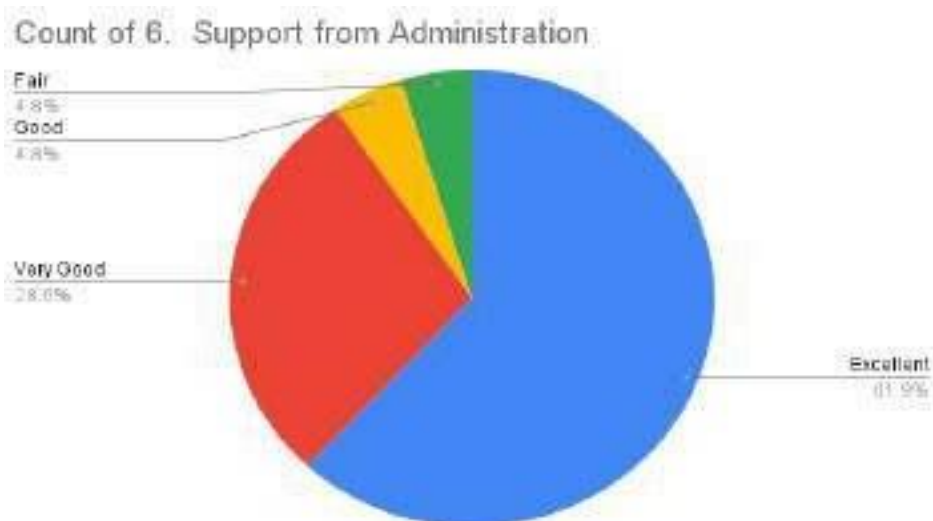

The library facilities received an overall rating of *Excellent* or *Very Good*. This suggests that the college library is well-equipped and provides sufficient resources for students.

5. Quality of Faculty and Teaching

The faculty and teaching quality received very positive ratings. Many respondents rated it as *Excellent*, with a few instances of *Very Good* or *Good*. This highlights that the teaching standards are considered high by most alumni.

6. Support from Administration

The administration received consistent ratings of *Excellent*, indicating that the support from college management is very strong, with no significant negative feedback.

6. Examination and Evaluation System

Count of 7. Examination and Evaluation System

The examination and evaluation system were mainly rated as *Excellent* and *Very Good*. There was no significant dissatisfaction noted, suggesting that alumni found the system fair and efficient.

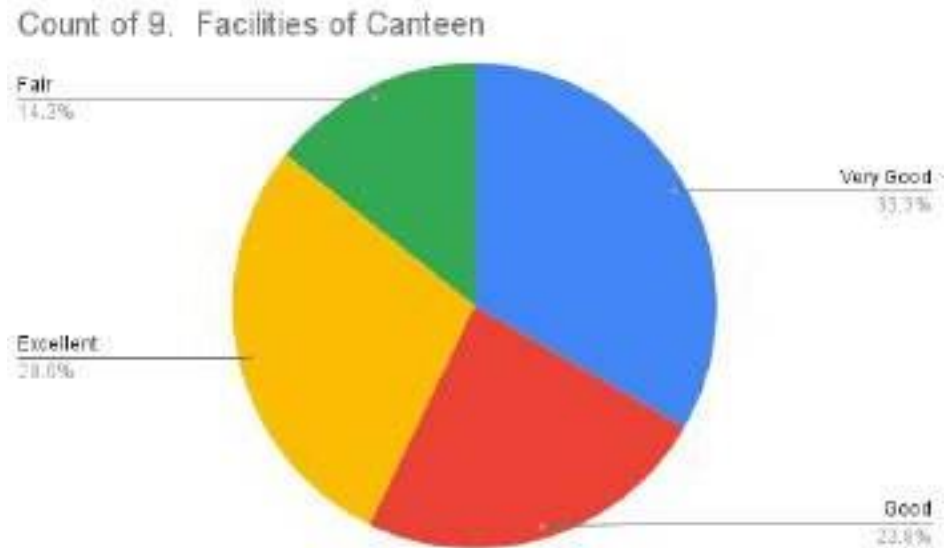

7. Facilities for Co-Curricular Activities

Count of 8. Facilities Co-Curricular Activities

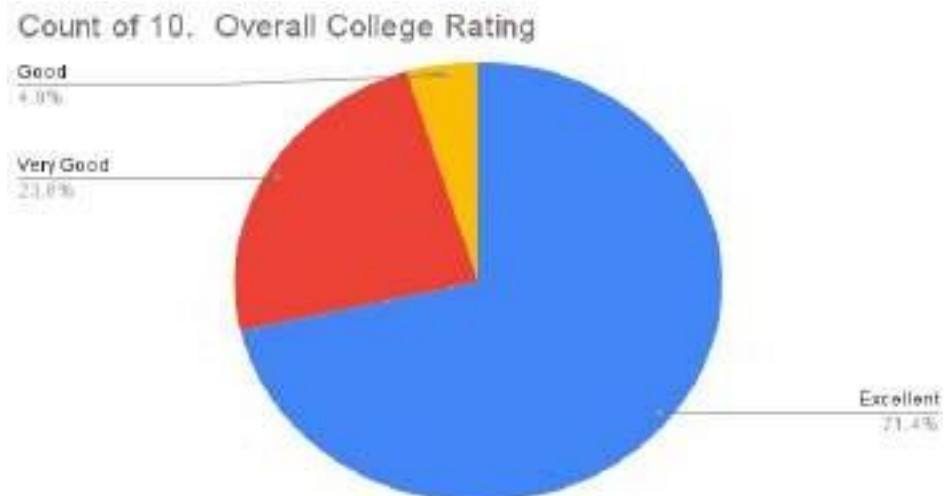

Co-curricular activities received high ratings of *Excellent* and *Very Good*, with only a few respondents marking it as *Good* or *Fair*. This indicates that the college provides excellent opportunities for co-curricular engagement.

8. Facilities of Canteen

The canteen facilities were generally rated as *Good* or *Very Good*, with a few *Fair* ratings. While the canteen facilities are decent, there may be room for improvement, as not all respondents rated them as excellent.

9. Overall College Rating

The overall college rating is predominantly *Excellent*, with only a few instances of *Very Good*, *Good*, or *Fair* ratings. This suggests that most alumni had a very positive experience at the college.

SUGGESTION

- The co-curricular activities could benefit from further attention, as some feedback indicated room for improvement in these areas.

The Committee prepared its report in due time and submitted to the Internal Quality Assurance Cell, Khagarijan College, Nagaon, Assam

INTRODUCTION

The feedback system acts as a method of checking the assessment as well as overall quality of the college and the teaching learning process. This system highlights the scopes of improvement as well as drawbacks of the institution. The feedback analysis of 2023-2024 aims at understanding the perspective of the teachers both as facilitators of knowledge and employees of the institution.

METHODOLOGY

The Feedback Analysis Committee took the initiative of having the online feedback forms distributed to the faculty members of the college with the directing them to submit the same at the earliest. The questionnaire included various parameters including references to flexibility of curriculum, its suitability to the 21st century fast paced world etc.

ANALYSIS OF FEEDBACK FROM PARENTS

The submitted feedback forms were tabulated as pie chart and their responses are analyzed for proper suggestions to be derived from the same.

1. The Parameter: The Current Curriculum is relevant for employability

Count of Parmenter-1: The current syllabus is relevant for employability

The overall trend of responses is positive, with a significant majority of respondents agreeing that the syllabus is relevant to employability. The few dissenting or neutral responses suggest there might be room for improvement or a need for additional clarification on how the syllabus aligns with the job market.

2. The Parameter: The Curriculum is effective for development of innovative thinking among the students

Count of Parmenter-2: The curriculum is effective for development of innovative thinking among the students

The responses suggest a generally positive view of the curriculum's role in fostering innovation, though further exploration of the concerns from neutral respondents might help refine or enhance the curriculum to better support this development.

3. The Parameter: The present syllabus is effective in developing skill based human resources

Count of Parmenter-3: The present syllabus is effective in developing Skill Based Human Resources

Majority of the teachers believe the syllabus is effective in preparing students with the necessary skills for the workforce, but further attention could be given to addressing the views of those who are neutral or unsure.

4. The Parameter: The Curriculum is up to date

Count of Parmenter-5: The curriculum is suitable for generating entrepreneurship

A significant majority of responses suggest that the curriculum is considered up to date, with strong support from some respondents who **Strongly Agree**. The overall trend is positive, with most agreeing that the curriculum is up to date; there is a need to address the concerns of those who feel it may not be fully current or relevant to modern needs.

5. Parmenter-5: The curriculum is suitable for generating entrepreneurship

Count of Parmenter-5: The curriculum is suitable for generating entrepreneurship

The majority of respondents (14 out of 23) agree that the curriculum is suitable for generating entrepreneurship. This indicates that most people believe the curriculum provides the necessary foundation or tools for fostering entrepreneurial thinking or skills. In summary, the curriculum is generally viewed as effective in fostering entrepreneurship, though there are a few dissenting or neutral opinions that could provide insights into areas for further development or improvement.

SUGGESTIONS

1. The curriculum needs to be revised or improved to ensure it aligns with the latest developments or trends in education and the field.
2. Increased emphasis should be placed on fostering entrepreneurship by providing students with more exposure to it.

ACTION TAKEN

1. The college administration introduced certificate courses aligns with the latest developments or trends in education and the field.

2. Memorandums of Understanding (MoUs) have been established with external organizations to offer students opportunities for entrepreneurship development.

MOU Reports

1] MoU between Khagarijan College, Nagaon, Assam and Krishna Kanta Handiqui State Open University, Guwahati

MoU was signed on 20/3/2020 between Khagarijan College and Krishna Kanta Handiqui State Open University, Guwahati, for the College to act as a study centre of the University.

Nature of Collaboration: The possible areas of collaboration included are:

- The study centre of the university is to be established in the college.
- Provide proper guidance to the learners through scheduled classes.
- Establish open education for the people at the grassroots level.

The KKHSOU study centre was launched with UG courses like B.A Programme in English, Assamese, Education, Economics, Philosophy, Political Science etc. In 2021, postgraduate courses in Assamese, English, commerce, education, economics, and political science were launched at the centre. Presently, the centre is a thriving hub of knowledge exchange with more than 200 learners. Each year, an induction cum orientation session is organised to introduce the newly admitted learners to the entire procedure of Open Education from KKHSOU.

Apart from the regular courses, the following programmes were also conducted:

Chotahaibor, Dist. Nagaon, Assam, PIN-782003.

The Assam Royal Global University, Guwahati and Khagarijan College are hereinafter collectively referred to as 'the Parties/Universities/Institutions' and individually as 'the Party/University/Institution'.

2. Purpose:

That the broad objective of this agreement is to have a common platform for Research / Faculty and Student Exchange Program/ Summer & Winter Internship/ Projects/ Joint Consultancy/ Joint Training Programs/ Effective implementation of NEP 2020 also considering issues related to NAAC, NIRF and UGC notifications on UTSAH and PoP etc. and other activities as agreed upon by both the parties.

3. Statement of Mutual Benefits & Interests:

3.1 Together, these two parties shall work towards furthering cooperation in both education, training & academic research which will be mutually beneficial for both institutions.

3.2 Parties shall work in cooperation for research activities; joint training programs; exchange of faculty members; summer programs; student exchange; joint publications & sharing of information, etc. in addition to taking advantage of RGU's multi-disciplinary, inter-disciplinary, vocational degree thus, providing benefit to the students of the college under the NEP 2020 scenario.

4. Forms of Cooperation:

The Parties envisage the following cooperation within the scope of this Memorandum of Understanding (MoU):

4.1: Exchange of Faculty members

For planning and handling of academic programs and courses, organization of seminars, workshops and conferences including the exchange of mutual experiences in teaching, research, and industrial practices with prior approval from parent institutions. Honorarium, transportation, and accommodation/hospitality as per institution norms.

4.2: Exchange in Research

Through joint programs in research and development, including provision of Summer/Winter Internship Programme for the students of RGU and vice versa. During the period, either institution will provide hostel accommodation to the visiting students as per the institution norms. Prior approval and agreement of the head of the concerned department of the institutions is to be obtained to allow students to work in laboratories for projects, internships, etc. The Vice-Chancellor/Registrar/Principals of the universities/institutions will be the sole authority to grant final approval.

4.3: Joint Submission of Collaborative Projects

RGU faculty will involve some of the selected faculties of Khagarijan College (depending upon their interest and expertise in a chosen domain) to be Co-investigators in their project proposals for funding and vice versa. Faculty members involved in any such projects will need to seek prior approval from respective Heads of the Institution.

4.4: Seminars / Symposia / Workshop/ Training Programs to be jointly organized

To jointly organize short-term continuing education programs, to organize seminars, conferences, training programs or workshops on topics of mutual interest, and invite faculty members from both the institutions to participate therein. However, for specific co-operation, projects shall be negotiated separately between the Parties and, in each specific case, shall be established as separate written agreements, stating the respective rights and obligations of the Parties.

4.5 Co-Curricular activities (Sports, culture, debate, quiz etc.)

RGU and Khagarijan College may conduct some Inter-University joint events, joint camps, training for specific sports etc. with mutual consultation.

5. Financial Obligations:

There will be no financial obligations on both the parties under this agreement.

6. General Coordinators:

Each party shall designate an administrative office/ department to oversee and facilitate the implementation of any agreements arising out of this MoU.

7. Intellectual Property Rights:

RGU and Khagarijan College agree to respect each other's right to intellectual property. Further, all rights linked to ideas, inventions and patents generated during the MoU shall remain the common intellectual property of the Parties. The Parties shall not pass on or give usage rights of such property to any third party without the consent of the other party.

8. Dispute Settlement:

In the event of any dispute or difference arising under this Agreement, the Parties shall try to discuss and arrive at an amicable resolution thereof. If the Parties fail to arrive at an amicable resolution within (thirty) 30 days of the dispute having arisen, the matter shall be referred to arbitration by a single arbitrator appointed pursuant to the Arbitration and Conciliation Act, 1996. The arbitral proceedings shall be held in Guwahati and the language of arbitration shall be English. The Parties agree that the decision of the arbitrator shall be final and binding on the Parties. The arbitration tribunal shall also decide on the costs of the arbitration procedure.

9. Liability:

Except for loss or damages caused through gross negligence or intent, the Parties shall have no liability to each other hereunder.

10. Force Majeure:

Neither party shall be held responsible for non-fulfilment of their respective obligations under this MoU due to the exigency of one or more of the force majeure events such as but not limited to eventualities like floods, earthquakes, strikes, bandhs, lockouts, epidemics, riots and commotions, etc. provided on the occurrence and cessation or cessation of such events, the party affected thereby shall give notice in writing to the other party within one month of such occurrence or cessation. If the force majeure conditions continue beyond four months, the parties shall then mutually decide about the future course of action.

11. Legal Relationship:

This MoU shall be construed as a statement of purpose to promote a genuine and mutually beneficial collaboration between the Parties. Nothing in this MoU shall be constructed to create any legal relationship between the parties.

12. Coming into Force, Amendment and Termination:

This MoU shall come into force from the date of its signature and shall remain valid for a period of 5 years. This MoU may be modified, renewed or extended with the mutual written consent of the Parties. Either party may terminate this MoU by giving six (6) months' notice in writing to the other party.

Done at RGU on this 12th day of December 2023, in two originals in the English language, one for each party.

IN WITNESS THEREOFF, both the parties have caused this MoU to be signed by their duly authorized representatives.
